

# Starting Stream on Windows

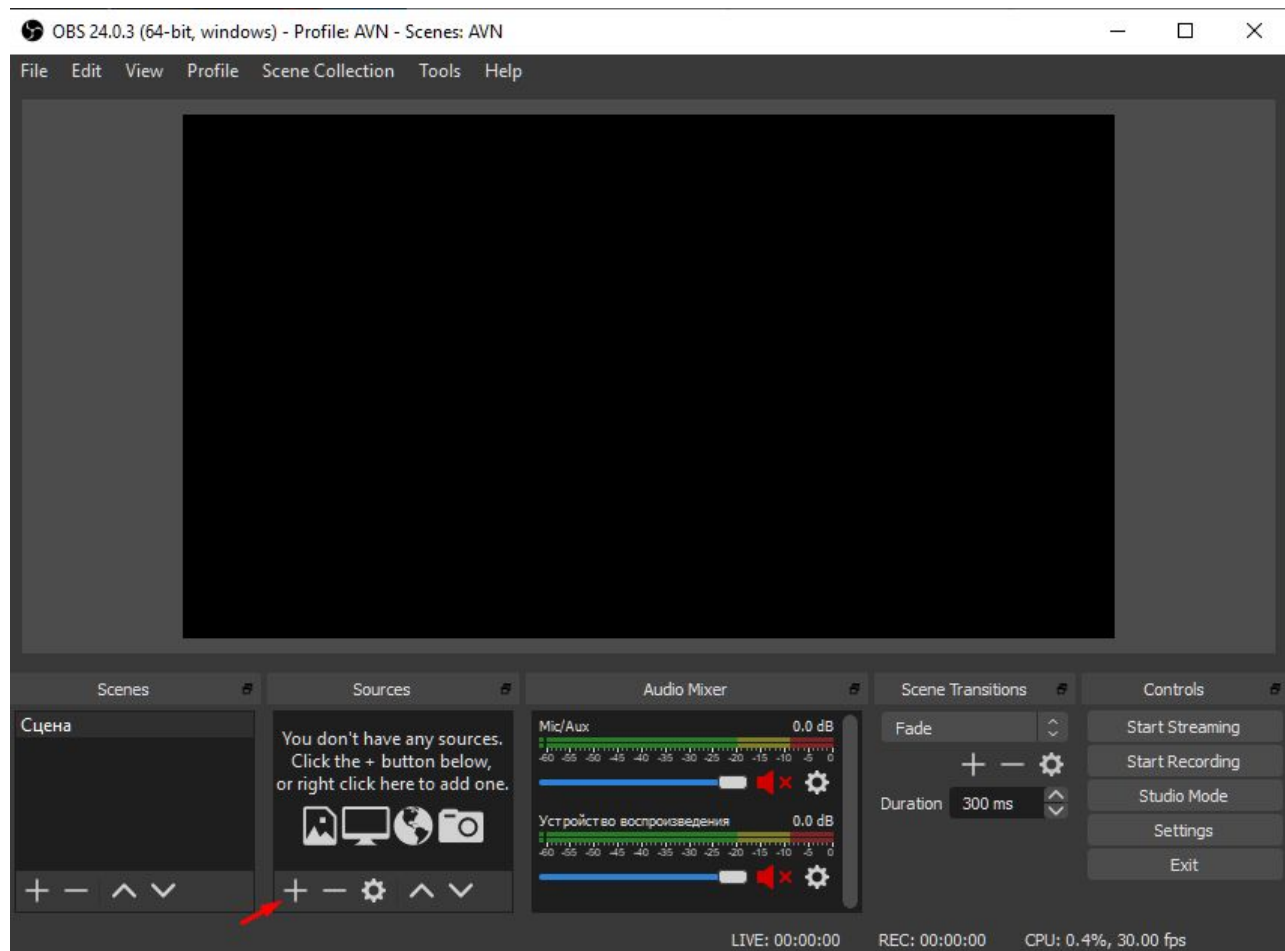

Open Settings/OBS section on site. Copy OBS server URL and OBS streaming key to OBS Studio Settings

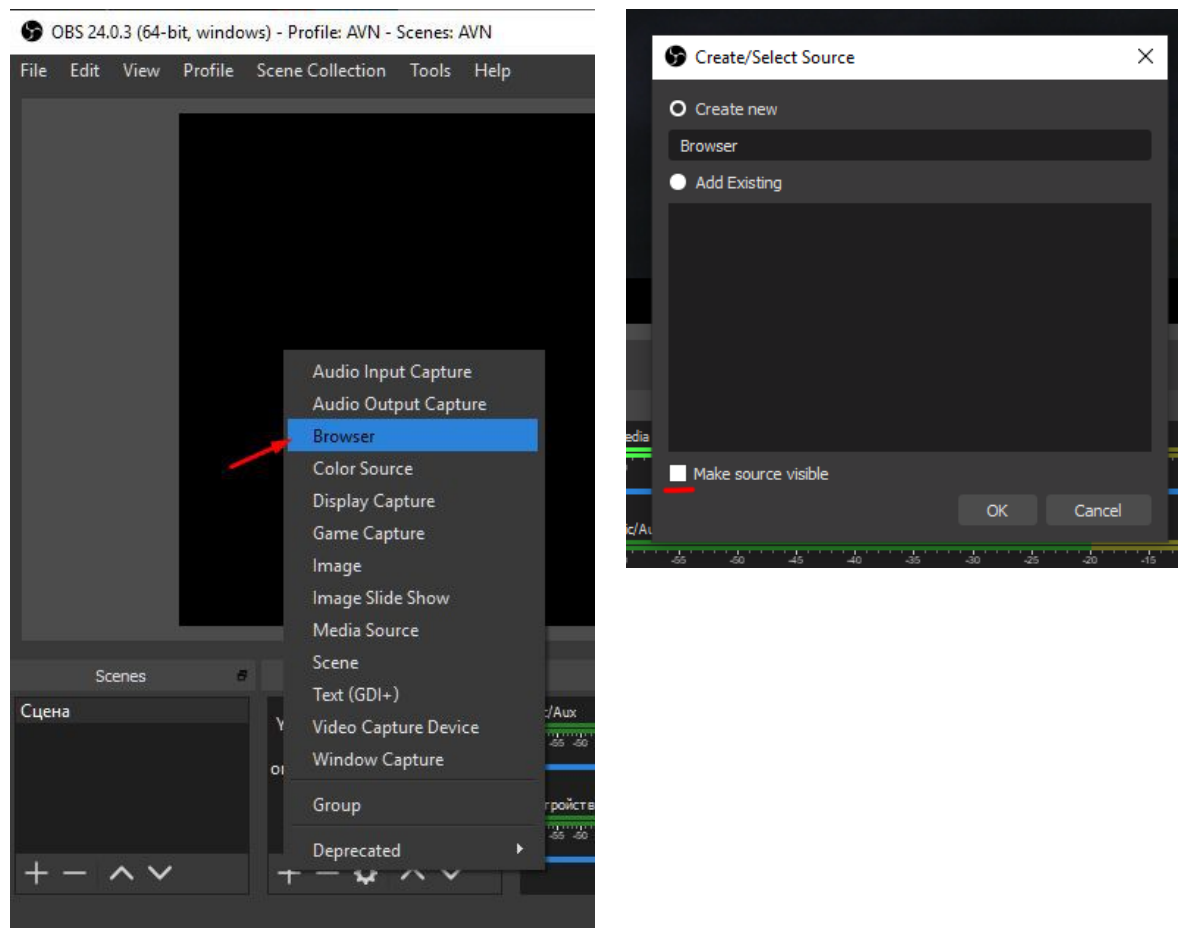

Paste it into OBS Settings/Stream section

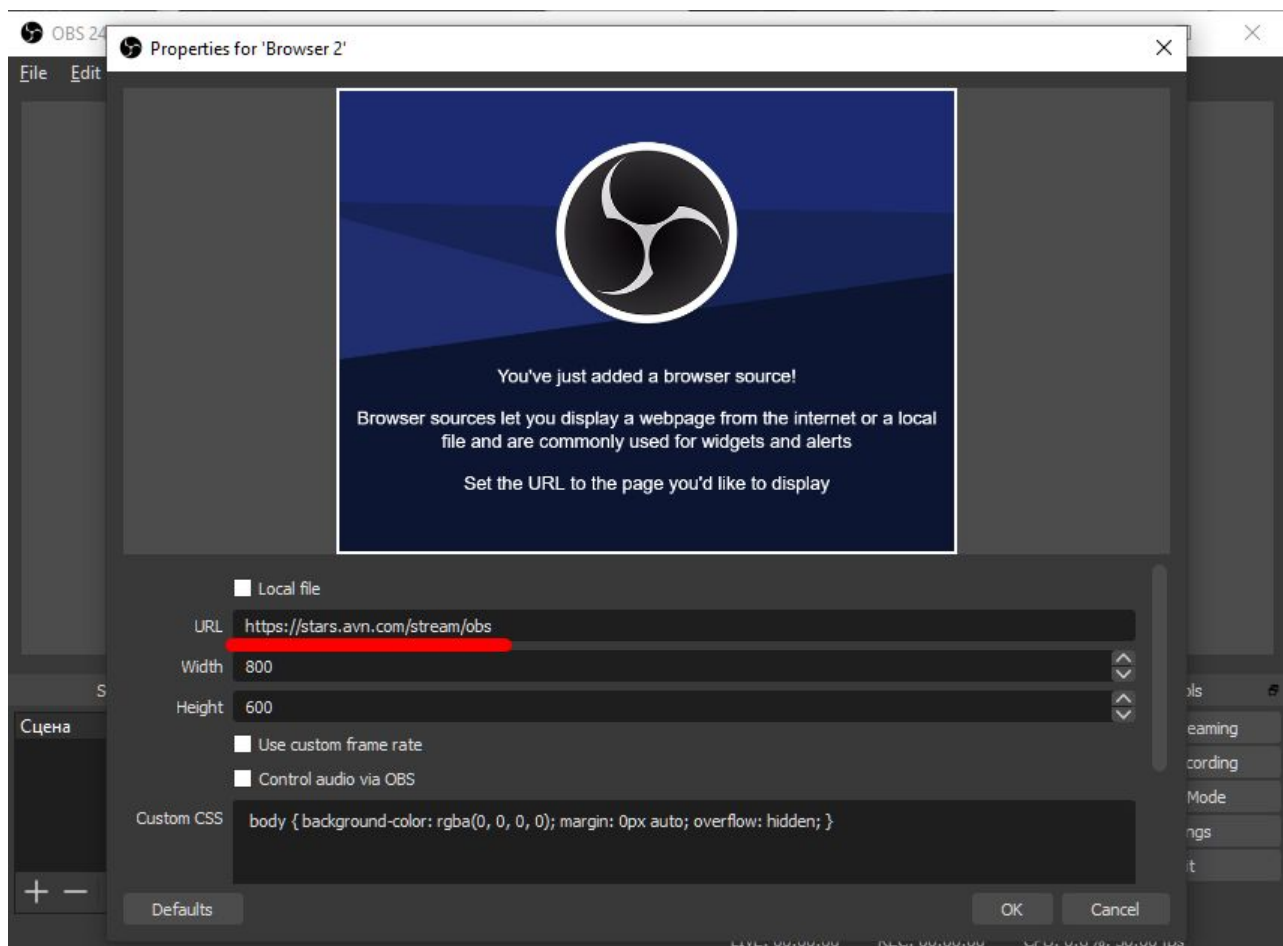

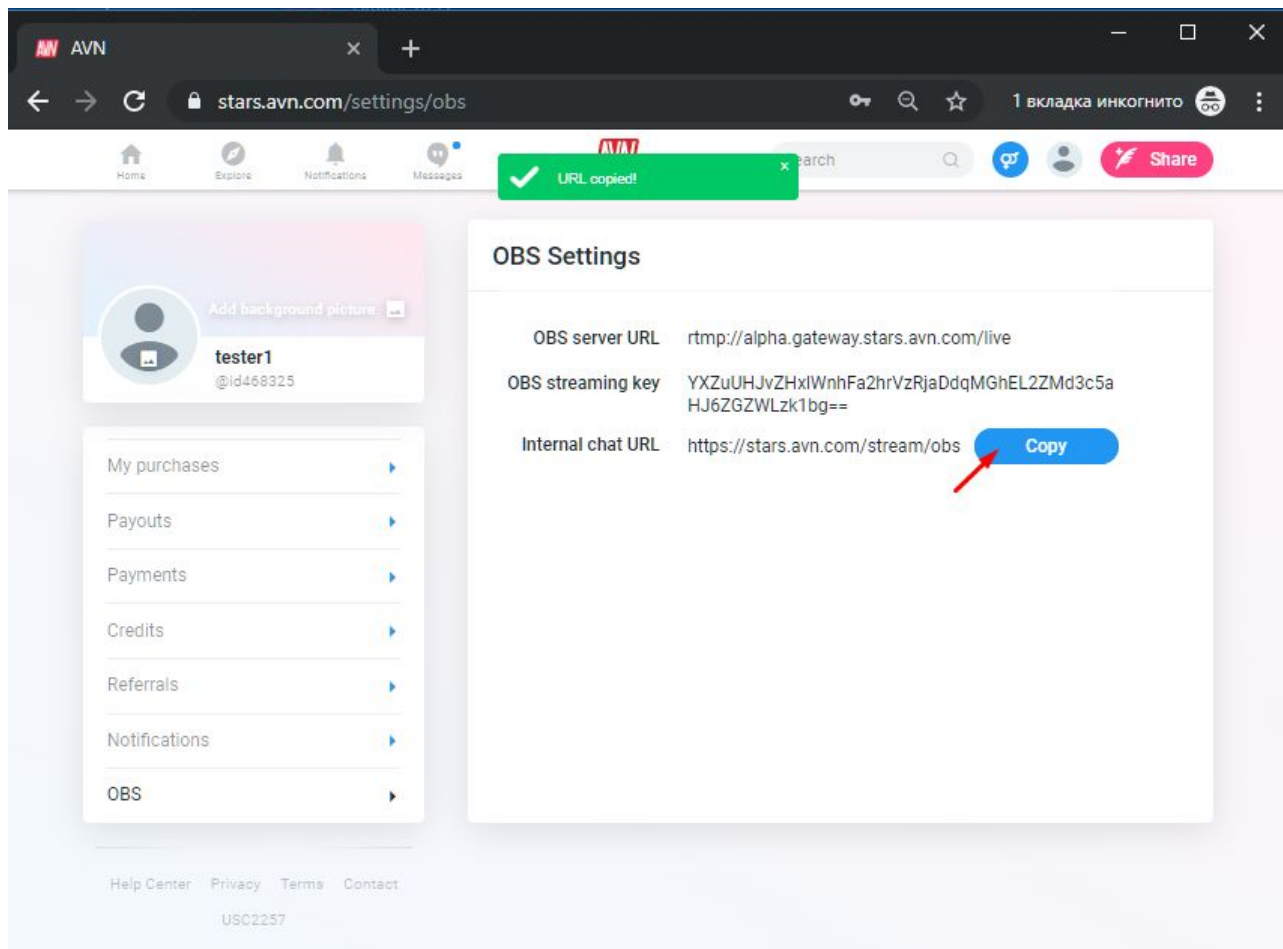

## Add Browser Source

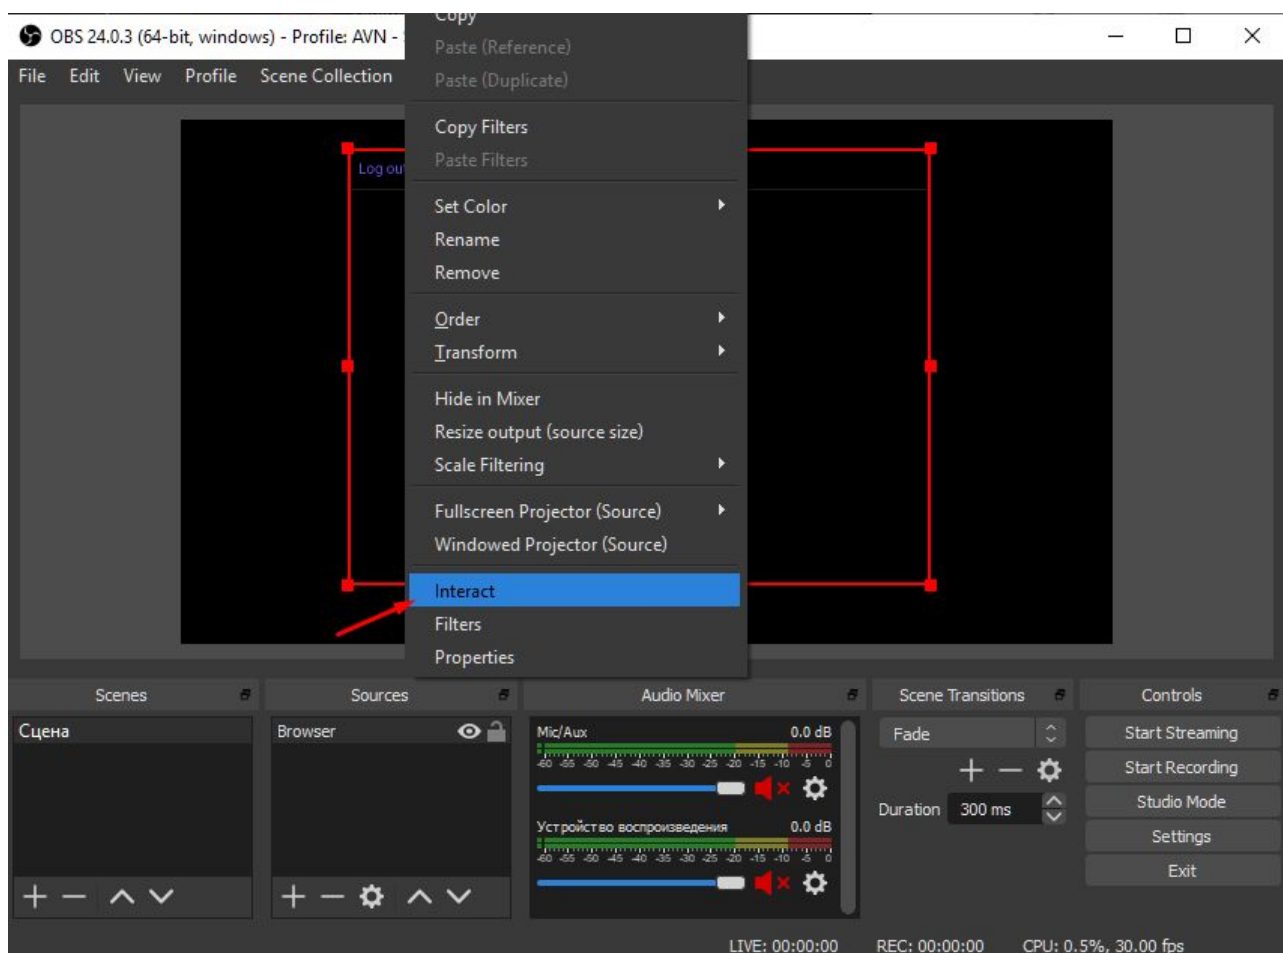

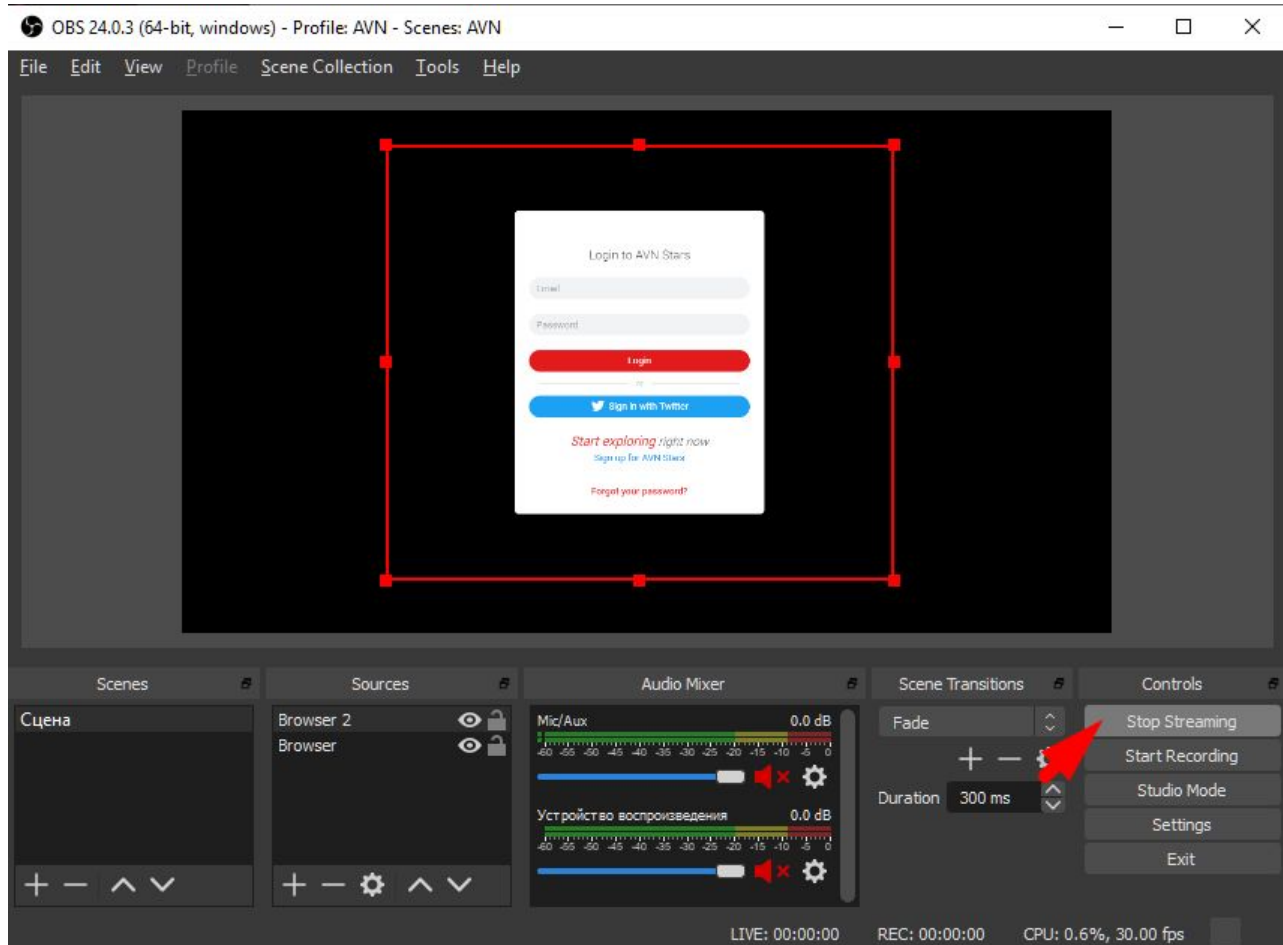

## Choose Browser type and Unmark "Make source visible" checkbox

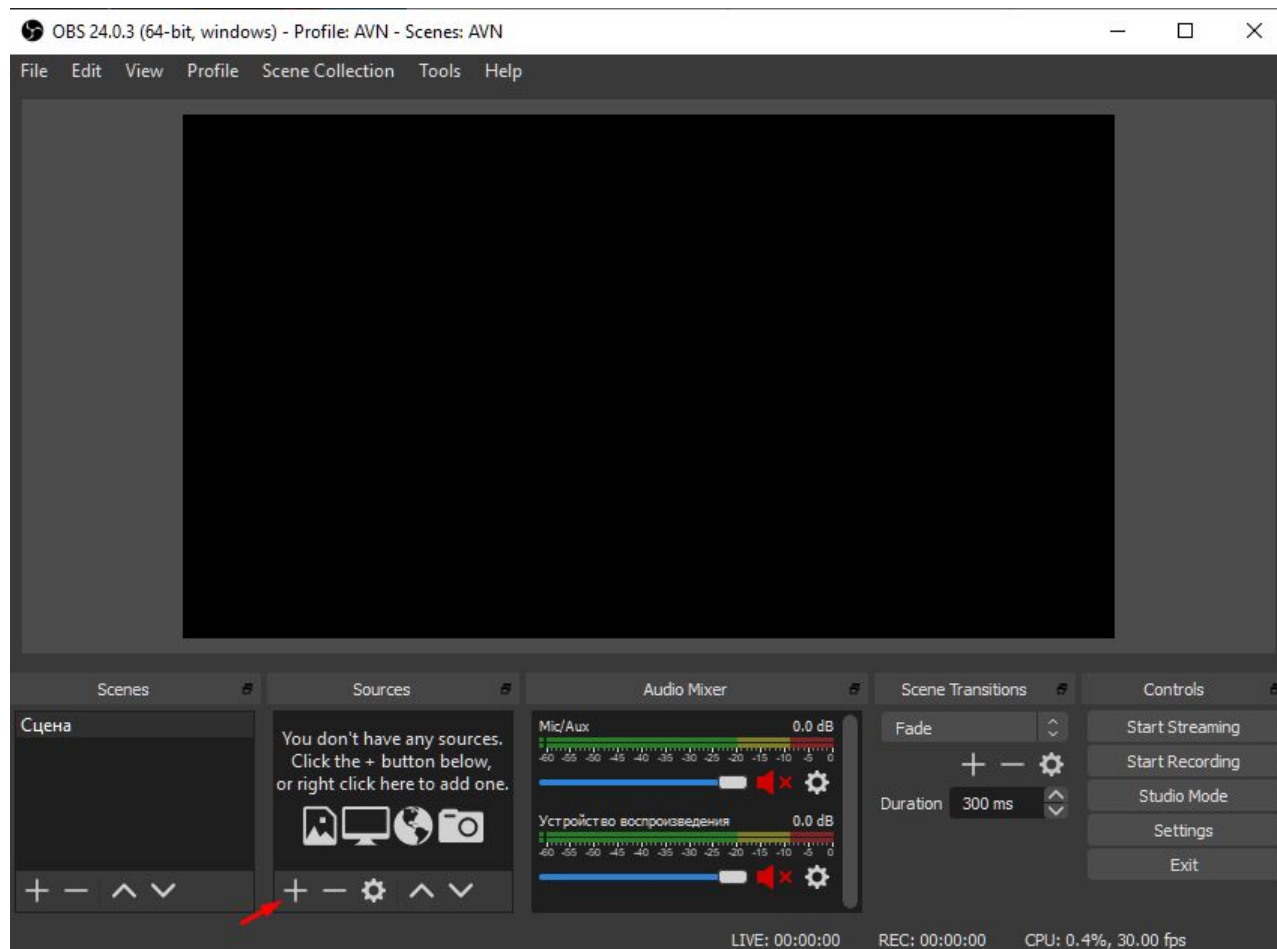

## Setup Browser Source for managing chat inside OBS program

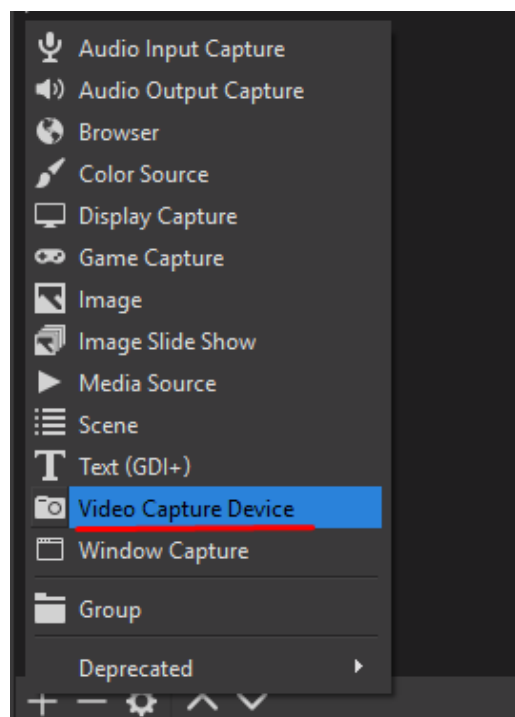

## Login to site & interact with chat

## Add your own sources

For streaming from your webcam use **Video Capture Device** source

Start Stream & then open stream chat inside of OBS Studio
